

Downtown Liverpool In Business

DLIB

Press Release 24th July 2004

U-TURN A BLOW TO INVESTMENT

The decision to axe the Fourth Grace will lead to a major drop in investment in the City, business leaders feared this week.

In an exclusive DLIB poll of 500 leading firms, 80% think that the cancellation of the project will cause a drop in business confidence in Liverpool, both in the UK and abroad. The survey also found that more than 50% of businesses felt that the abandonment of the Fourth Grace badly reflected on the agencies involved in the decision-making process.
